

EVERLOC®

RETAINING WALLS

YORKTOWN

WELCOME TO THE FUTURE!

The Yorktown Series has all the signature features EverLoc® is known for. It offers a contemporary new look with a modernistic, smooth face. Straight lines and radius edges are accentuated adding to its uniqueness. Picture-framed faces resemble cut limestone used in upscale buildings. The Yorktown Series by EverLoc® is one of the most advanced SRW units on the market today.

The series is available in two face styles (Traditional and Full), and both 8” heights and 4” heights. Each style can be used alone or mixed together to achieve a multi-piece look such as EverLoc’s Gettysburg™ pattern. Give your project an upscale appearance with this “one of a kind” retaining wall system.

See installation manual for more details at www.everlocretainingwalls.com!
